

### Glazed Ceramic Roof Tile

Win Source Ceramics Co., Ltd is a large-scale glazed ceramic roof tile manufacturer in China. We have been manufacturing glazed ceramic roof tile for more than 30 years with richful experience and exporting to the whole world for more than 15 years. Because of the developed manufacturing facility, we are producing roof tile automatically, which can save us labor cost and offer good price to our clients. Good price advantage makes us to get a very wide range of market, like Asian, Southeast

Asian and also the European and American markets. We are expecting can be one of your reliable roof tile suppliers too.

### Glazed Ceramic Roof Tile

#### Product Introduction of the Glazed Ceramic Roof Tile

Tangshengyuan® Glazed ceramic roof tiles are exported overseas for more than 1500 containers, which are made from the most important porcelain origin in Jinjiang, China, which is salvaged from "Nanhai No. 1". It is manufactured with a brand-new imported Press Machine with 3800 tons' strength, burnt in more than 1200 degree kiln, and meticulous craftsmanship.

Because of the high technology production equipment's supports, our glazed ceramic roof tile has many advantages like never color fading, cold resistance, pressure resistance, anti-corrosion, sound insulation, heat insulation, natural matte glaze, noble and elegant, low carbon, green and environmentally friendly. With these quality advantages, our glazed ceramic roof tile has been popular in the world's market as soon as it is coming out.
